

DEVOPS DAYS WARSAW 2014
25-26TH SEPTEMBER

DevOpsDays Sponsor Warsaw 2014

Do you want to connect to tech and business minds?

After successful editions in Gent, Paris, Amsterdam & London, DevOpsDays is visiting Warsaw in 2014. With amazing speakers and community, our first edition established DevOpsDays as an event you do not want to miss. We believe 2014 will be a DevOps year.

DevOpsDays is about inspiring people and exchanging knowledge with those who are at the forefront of DevOps. We like to show best practices and learn from those who know best. We believe there is a lot to gain and bringing like minded people together will give us a chance to discuss the future of DevOps.

So if you do not want to miss out on meeting some of the greatest technical and business minds in the industry, check out our sponsor packages below. But first, what does sponsoring DevOpsDays get you?

Booth space

Gold sponsors receive a private booth at the event. This is the perfect place for your tech geeks to meet other tech geeks. We'll hook you up with a booth table and chairs. You can decorate your booth anyway you like; signage, giveaways, you name it. However, the focus should be on DevOps. We encourage sponsors to send engineers to interact with attendees during session breaks, and to avoid large displays and heavy marketing materials.

Five-minute pitch

Between sessions Gold Sponsors are given the opportunity to introduce themselves and their company to the full audience for a full 5 minutes.

The venue

DevOpsDays Warsaw will be held in Polish-Japanese Institute of Information Technology in the Centre of Warsaw. This education hub is located close to the central station and offers plenty of space to meet the technical and business geniuses visiting the event.

You'll meet some amazing people, learn lots of cool new stuff but also help shape the future of DevOps. What's more, you will have the unique chance to take part in the discussion about the future development of DevOps. DevOpsDays offers you the opportunity to start a conversation with those who are influencing decisions in security, monitoring, operations, engineering, quality, and process.

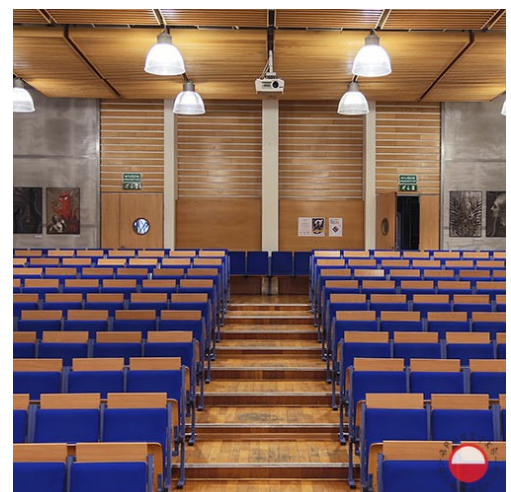

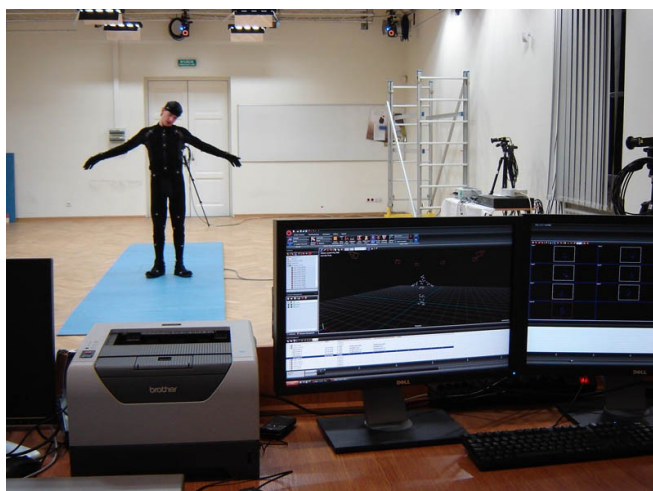

DevOpsDays Amsterdam offers the following sponsor packages for 2014:

Sponsor Packages	Silver	Gold
Price (EURO)	1000	2000

Become a sponsor now by emailing organizers-warsaw-2014@devopsdays.org, or visiting <http://devopsdays.org/events/2014-warsaw/>.

Do you have questions about the sponsor packages or great ideas for DevOpsDays? Do not hesitate to contact us at organizers-warsaw-2014@devopsdays.org, or visiting <http://devopsdays.org/events/2014-warsaw/>.

Venue

Sponsor FAQ

1. Do we get any sponsored talks?

No, but you are welcome to submit a proposal for consideration, see <http://devopsdays.org/events/2014-warsaw/propose/>.

2. Who should I send to the conference?

To get the most out of DevOpsDays, send your technologists and geeks who can interact with the attendees during sessions, Open Spaces, workshops and breaks. Marketing folk, traditionally, are less capable of conferring the story you want to tell.

3. What are the demographics of the attendees?

Technologists, architects, tech leads. Refer to the Eventbrite registration list <http://devopsdays.org/events/2014-warsaw/registration/> (Scroll to the bottom of the page).

4. Is there another way to pay besides PayPal?

Yes, we can provide you with an invoice and will be able to accept wire transfer. To request this, we need the official business address and VAT number .

5. How do we register our sponsor tickets?

Once payment has been done, we will send you a discount code to register your tickets associated with your sponsorship level.

6. Can you send me a floor plan?

We can send you a PDF of the floor plan if you need.

7. How big is our booth space?

For Gold Sponsors, you will receive a table and two chairs. Silver sponsors share a swag table where they can lay out printed materials, stickers or other swag. As you are sharing your space, we ask you to be a good neighbor and not take up too much of the table.

8. When can we pick our booth spot?

Our team will assign your table. Assignments will be made two weeks from conference date.

9. How many scanners (and which type) do we get?

At DevOpsDays Warsaw we use (optional) name tags in favor of, less personal, scanners. This allows for better conversations about your company and product rather than a slow or nonworking scanner. We have seen that sponsors benefit most when they bring engineers to the conference to interact with the attendees. That being said: you are responsible for collecting any information you want in person if you want to do giveaways. Friday, at the closing session, we will provide a time slot for a giveaway.

10. Can we bring a onemeter rollup as our back wall?

Whatever you bring must fit behind or on your table. This conference is about the people working on DevOps and your focus should be on discussing the future of DevOps. Therefore we encourage sponsors to send engineers to interact with attendees during session breaks, and to avoid large displays and heavy marketing materials.

11. Will we have any chairs at our booth?

Each booth comes with two chairs.

12. Will there be a company sign at our booth? When do you need graphics?

You must bring your own signage and all signage must either fit on the 6' table or behind it.

13. Do we get electricity connection for our booth?

Yes, we will provide you with a power strip.

14. Will the WiFi connection be good enough for showing demos?

Yes.

15. Do we get an ad in the program? When do you need graphics?

Unless otherwise directed, we will use the logo you sent us for the website.

16. Do we get a dedicated email blast?

No.

18. Can we ship stuff ahead?

Yes you can, within reason. Please contact us to make arrangements.

If you have a question not answered above, or anything is unclear please contact us at organizers-warsaw-2014@devopsdays.org
