

TransLink Centre for Service Excellence Location & Transport

TransLink Centre for Service Excellence is located just 2kms from the CBD in the heart of the Kelvin Grove Urban Village —Brisbane's newest master-planned inner-city precinct merging business, technology, education and the arts. A vibrant light-filled conference and training venue, the centre is situated in the Synergy building at the northern end of Musk Avenue, offering panoramic inner city views from expansive glass wall to ceiling windows. Synergy is a state of the art A-grade building which has been awarded a '5 Star Green Star As Designed' rating under the Green Building Council of Australia's (GBCA) Green Star rating system.

Public Transport Travel by Bus to the Centre

Parking Kelvin Grove Urban Village Precinct

'Synergy' Building

TransLink Centre for Service Excellence is located in the Synergy building on the corner of Musk Avenue and Robinson Place, Kelvin Grove.

The building is situated at the northern end of Musk Avenue (on the top of the hill), close to the QUT campus and just a short walk to the Inner Northern Busway, QUT Stop.

Onsite Parking

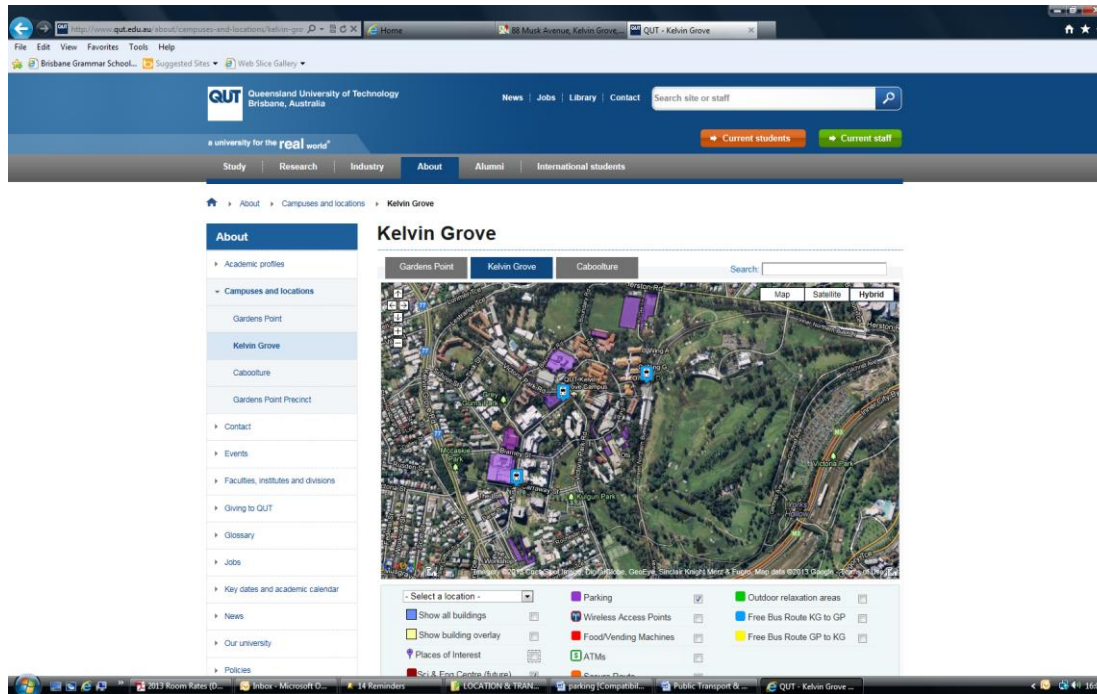

[Wilson's paid parking](#) offers a small number of prepaid (coin operated) car parks directly under the building. These are open from 6.30am to 6pm Monday to Friday at a cost of \$9.00 per day (early bird before 9:00am) or at a casual rate starting at \$2.00 per hour up to a max of \$12.00 for 4 hours plus. Please allow sufficient time for parking as the spaces in the building are limited.

On-Street Parking

Brisbane City Council offers 'pay and display' parking along Musk Avenue and surrounding streets starting at \$1.50 per hour up to \$8.00 per day (maximum time limits allowed on metres varies by location).

Parking QUT Pay & Display Locations

Queensland University of Technology (QUT) operates a number of Pay & Display car parks on the Kelvin Grove campus, within walking distance of the TransLink Centre for Service Excellence.

The car parks are designed to cater for staff, students and visitors who require short term parking on the campuses. Most car parks operate 24 hours per day, seven days per week.

When entering the car parks, customers first find a car space before going to one of the ticket machines located in the car park. All ticket machines accept coins and some also accept credit card payments.

Once parking duration has been selected and paid for, the customer will then be issued with a ticket, which must be displayed on their vehicle while the vehicle is parked in the car park.

These affordably priced car parks enjoy strong patronage and early arrival is recommended to avoid disappointment.

Please note QUT advises infringement notices will be issued to vehicles that do not display a valid ticket/permit; whose ticket/permit is not completely visible through the windscreen; that are not parked in a designated bay; or that overstay the maximum time limit.
